2024 GEAR CASE CATALOG

SR SERIES

■ Model: SR00003
Large 47" 110 Liter Protective Gear
Hard Case Water and Shock Proof

Outer: 47.2" x 18.5" x 12.8"

Inner: 43.9" x 16.77" x 10.3"

Standard Color Variations:

The SR Series of overlanding cargo cases was developed to help avid off-roaders and campers transport their equipment in and out of the toughest terrain. A lightweight roto-molded design provides exceptional durability, and features solid metal locking latches and padlock fittings for added security. Whether roof rack-mounted or stored securely within the vehicle, Eylar® SR cargo cases are perfect for any outdoor adventure.

- Individual foam pieces can easily be removed or added back to the main foam structure to create diverse storage cavity arrangements, which can accommodate a wide variety of equipment.

The RAGAR foam system embodies a significant breakthrough in storage solutions due to its ingenious design, unrivaled adaptability, and advanced material utilization. It consists of reusable interlocking foam pieces that empower users to craft tailor-made foam cavity shapes, optimized to house various objects according to individual requirements. Exceptionally versatile, these foam pieces can be conveniently added or taken out from the main structure, creating a unique opportunity for dynamic customization and facilitating diverse storage cavity configurations.

RAGAR reusable foam stands out from contemporary conventional systems through its groundbreaking tessellating design. Each piece flawlessly interlocks, irrespective of its orientation, ensuring a perfect fit always and providing seamless user experience. The underlying innovation of easy interlocking demonstrates a leap in design, enhancing practicality and boosting overall user satisfaction.

Eylar® portable protective gear cases are designed to be convenient and customizable. A tough exterior creates protection from impact along with a strong seal to keep the box water Proof. Air pressure equalizer valve located at the front to compensate for changes in pressure when traveling. Pluck and pull foam allows for custom compartmentalization to store gear neatly and securely. Strong and durable clamps located at the front or sides for watertight sealing and a fold out handle for easy carrying. Uniform grooves to create stacks if needed. Eylar® Gear Cases are ideal for protecting cameras, hand guns, tools and valuable equipment.

Protective Deep Roller Hard Rifle Case Water and Shock Proof **with Foam**

Eylar® protective deep hard roller cases are the ideal choice for transporting rifles and tactical equipment, thanks to their innovative edge-to-edge crushproof design. These cases provide unparalleled durability, ensuring that your valuable gear remains safe and secure during transit. The inclusion of pluck and pull foam adds a layer of customization, allowing you to tailor the interior to your specific storage requirements. What sets Eylar® apart is not just its rugged exterior, but also its capacity for accommodating hard cases that are deeper, providing even more storage space for your equipment. For reliable on-the-go protection, opt for Eylar® protective rifle roller cases, where toughness meets versatility.
